

# **Celebration of Engineers Day**

15<sup>th</sup> September, 2017

## **In Department of Civil Engineering (RIT) in joint association with Walwa Taluka Engineers Association (WE)**

In India, every year 15<sup>th</sup> September is celebrated as “Engineer day” by engineering community. This date was selected because it is the birthday of legendary engineer Sir Mokshagundam Visvesvaraya (M. Visvesvaraya) who has contributed in the development of our nation and is known to be the greatest engineers of all times.

The Department of Civil Engineering celebrated “Engineers Day” on 15<sup>th</sup> September 2017 in association with Walwa Taluka Engineers Association (WE) to commemorate the 152<sup>nd</sup> birth anniversary of Sir M. Visvesvaraya. Prof. R. S. Patil welcomed the chief guest, all invitees, faculty, staff and students and introduced about the program details. The program was inaugurated by lighting the holy lamp and in the presence of chief guest Mr. Bhaskar Kumbhar, Planning Manager of K. H. Foges India pvt. Ltd. Mumbai, Er. Sunil Patil, President of WE, Mr. Satyajeet Patil. Public Relation officer, WE, Er. J. R. Khambe, Member of WE, Dr. P. S. Patil, Head of Structural Engineering Program, Dr. A. C. Attar, Dean Quality Assurance and other faculty members of Civil engineering department.

Prof..... felicitated the chief guest and invites by offering bouquets. Dr. P. D. Kumbhar introduced about the Civil engineering departments and its progress along with the activities undertaken and proposed in the near future. Dr. A. C. Attar shared his expressed his views and advised the students to take the inspiration on engineer’s day. Mr. Sunil Patil shared his site experience and also shared valuable guidance that how to satisfy our customer by giving them most advantageously developed plan of residential building by giving some live examples. Mr. Bhaskar Kumbhar shared his experience regarding time management on construction sites. Also he has shared his experience about importance of time in corporate sector related in construction, How to achieve goal in corporate sector and How to do effective project management etc.

Here, we are mentioning the essence of chief guests message to the Faculty and students “Engineering is the professional art of applying science to the optimum conversion of natural resources to the benefit of man”

This quote conform the influencing role of engineers in the development of nation. Engineers are those who operate at interface between science and society. Engineers are the backbone of development & technology. Today, India has important vision and mission in the areas of space research, defence development, rural development, renewable energies, agriculture and food processing, information and communication technology and education etc. and for this there is need of engineers with vision, passion to transform the vision into action, courage to think different, to combat problems. According to “India Vision 2020 for transforming nation into developed country” of honourable former president of India Dr. APJ Abdul Kalam, not only engineers but everyone should have the ambition to live in a developed country, and for this each one of us show that integrity towards the development of nation. We are the World and its creator’s because Scientists invented the world that already exists, but we ENGINEERS create the world that never existed so, we are proud to be an Engineer. With this conclusion, wishing you all, a very happy ENGINEERS DAY.
